

N254F

900042-A

Rail mount with handle. Nylon.

1" 14TPI male. Fits low 1" 14TPI ferrule antennas.

This is a generic and easy to use high quality rail mount (20-25mm) with rubber grip on the inside. The N254F has cable feed in the bottom and requires an Allen key for fastening. Using the integrated handle allows quick and easy antenna tilt when needed. This mount is manufactured in premium quality materials in order to prevent galvanic corrosion. The mount is always subject for improvement. The mount has the same rugged design as all other AC Antennas products thus it withstands harsh environmental conditions, both on Sea and Land.
