

## N255F

### Deck mount

N255F is a universal deck mount for mounting antennas with 1"-14 TPI ferrule.

It is a very versatile deck mount with installation friendly front mount. N255F is intended for applications where the coaxial cable is protected inside the mount and cable feeding through the deck.

#### Mechanical Specification

Material	Nylon
Finish	White
Weight (g/lbs)	28/0.06
